### If the worst happens . . . CHARLOTTE IS PREPARED!

No one wants to think about being in an accident, but far too many times we, as Bikers, do come across those situations - what can you do to help? Learn from The Accident Scene Management Program Instructors exactly what to do, and more importantly, what Not to do! And That's exactly what the Charlotte Chapter learned on August 26 & 27, 2017.

Veteran Instructor Jim Norris taught The Accident Scene Management Class to our Chapter. It is Hands Down - ( or should we say Hands On) The Most Cutting Edge Educational and Interactive Program Available To Bikers!
